**A big conference in
the heart of Amsterdam?**

No problem. Multinationals and associations have their conferences at ijVENUES. Impressive spaces, meetings with a view and epic music performances on top.

That's ijVENUES, conference city in Amsterdam.

Eventspaces² with class

Modern architecture has its advantages. Our meeting rooms bathe in daylight and are equipped with high tech AV solutions. Often with views of the river IJ. Our exhibition space is over 5.000 m², with plenary layout up to 1.200. The auditorium offers seating for 700 delegates. We have got 25 meeting rooms, ranging from boardrooms to the main meeting room for 450 attendees. Combined this allows 1.900 participants at your conference.

Knowledge exchange

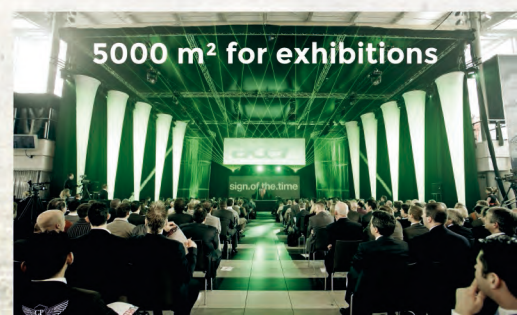

The Amsterdam Science Park brings together technical knowhow, creativity and excellent global access. ijVENUES is its nearest conference city. Together with **I**amsterdam we want to facilitate knowledge exchange via international conferences in Amsterdam.

Amsterdams urban centre

Amsterdam is a global top-10 conference hotspot and boasts a compact historical centre. High-end culture like the Rijks and Van Gogh museum is never far away, while some of the best classical music concerts take place in our own concert hall. Due to our waterfront location at the river IJ, ijVENUES looks out over exciting urban developments. This has become the new centre of Amsterdam.

Great access

Only 20 minutes from Schiphol Airport, a main international transfer hub. Easily accessible by car, boat or bus, with onsite parking garage. At 5 minutes from the central train station. We are the only conference city where you can dock a large ship as well.

for your ijdeal event

Everyone wants to sit in front, when the view is nice...

King Willem Alexander of The Netherlands had his inauguration dinner at ijVENUES. We think your event delegates deserve the same view of the river IJ. After the event, you are in the city centre within minutes, only to return for a good night sleep in a great bed.

That's ijVENUES, conference city in Amsterdam.
